IRISXTRACT™ THE CONTENT TO PROCESS PLATFORM

# DOCUMENT CONVERTER SOLUTION

## IRISXTRACT™

Flexible & scalable solution-platform

Cloud-Ready Technologies

100% Intellectual Property for independent and flexible partnerships

Flexible pricing models: Licensing, subscription, transactional

*Already more than 5000 customers from all continents trust IRIS Intelligent Document Recognition (IDR) solutions.*

## MAKE THE MOST OF YOUR DOCUMENTS

All organizations receive tons of paper and electronic documents of all types. Collecting and processing them is time consuming and resource intensive.

The IRISXtract™ Document Converter Solution is a **scalable and modular application** that automatically converts your documents into **fully searchable and hyper-compressed files** adapted for editing and long-term archiving. Output documents are routed to the archiving or back-end system of your choice (cloud or on-premise), for fast and easy access. The Document Converter solution processes both paper and electronic documents.

**Paper documents** are scanned right into IRISXtract™ using a dedicated version of IRIS Powerscan™. Documents can be separated either manually using separators like barcodes or automatically using the **Intelligent Document Separation** feature (add-on).

**Electronic documents** are automatically imported from watched folders, cloud repositories, e-mail...

**Small, medium or high volumes?** IRISXtract™ will adapt to your needs.

## UNIQUE COMBINATION OF FEATURES

- ✓ **Easy to install, easy to configure** — IRISXtract™ Document Converter comes with a dedicated installer allowing you to start most projects in a couple of hours! Specific needs can be addressed via user-friendly configuration steps while scripting can do the extra mile to meet extra-ordinary demands.

Scan/Import	OCR	Conversion	Export
Mobile Scanners E-Mail Watched Folders Cloud	 <p>paper</p> <p>electronic</p>	 <p>Compressed PDF files</p>	
<p>Folders, cloud and email addresses are automatically polled</p>	<p>Documents are OCRed and processed</p>	<p>Output images and text layers are combined within compressed searchable PDFs for easy sharing and long-term archiving</p>	<p>The solution routes output documents right to where you need them to be</p>

- ✓ **Image enhancement - Deskewing** — text skews on the image are removed. Orientation detection: images are automatically rotated. Despeckling: noisy pixels are removed.
- ✓ **Powerful text recognition** — IRIS-made OCR (Optical Character Recognition) technology perfectly recognizes 130+ languages. A full-page OCR layer is created and exported as part of a searchable PDF file (or as an editable file format like .doc, .txt ...).
- ✓ **IRIS DocText** — DocText skips the OCR step and retrieve existing text layers from searchable PDFs.
- ✓ **PDF hyper-compression** — IRIS-made iHQC™ technology (Intelligent Hyper Quality Compression) produces PDF/A documents up to 50 times smaller than usual. The output compressed PDF is a real PDF (no need for a specific tool or software to read it) embedding both a high-quality image and a full-page text layer, ideal for easy access on the go and long-term archiving.
- ✓ **Automatic document naming** — Documents will be named automatically based on the meta-data collected
- ✓ **Straightforward integration into your system** — IRISXtract™ exports your documents to system folders, archives and any third-party application via the IRISConnect™ Toolbox add-on IRISConnect™- dedicated connectors are also available for Share-Point, Therefore, FTP, ODBC, CMIS and cloud services like Box, Dropbox, Evernote, Google Drive and OneDrive.
- ✓ **Highly scalable & flexible** — The Document Converter Solution will be configured to address your needs, from small volumes to hundreds of thousands of documents per day. Moreover, if you want to grow your capture capacities, the IRISXtract™ installation can easily host more dedicated solutions.

## CONVERSION IS NOT ENOUGH FOR YOU? HAVE A QUICK LOOK TO THE IRISXTRACT™ SOLUTION FLEET

➔ **Data capture & conversion:** You want an application that produces compressed searchable PDFs (or other formats) but you also need to extract key indexes from your documents and route the information right into your system(s). No automatic document classification but a state-of-the art solution able to capture structured and un-structured documents.

- Invoice processing: **IRISXtract™ AP Solution**
- Order processing: **IRISXtract™ PO Solution**
- Other forms or document types: **IRISXtract™ Hybrid Forms Processing Solution**

➔ **Document classification, data capture & conversion:** You have multiple document types to be classified automatically before extracting key indexes and releasing both the data and the converted documents into your system(s).

- The solution you are looking for is **IRISXtract™ Digital Mailroom**

### YOUR BENEFITS

Reduce your storage costs

Secure your archives and stay in conformity with regulations

Easily share quality compressed PDFs

Straightforward configuration

Easy integration into your system
