

## **IRIS and Draycir announce integration with Spindle Document Management solution**

**Louvain-la-Neuve (Brussels) - Belgium, April 4, 2017** – IRIS, a member of the Canon Group, European leader in mobile scanning, intelligent document recognition, enterprise information management and optimization of IT infrastructures, is pleased to announce together with Draycir Ltd their collaboration to integrate IRISXtract for Documents (intelligent document recognition platform) and Draycir's Spindle Document Management solution.

IRIS is fully integrated within the Spindle Document Management functionality, making optical character recognition and extraction of invoice data an easy and reliable process. The Spindle Document Management solution offers users outbound document management, the ability to scan, import and capture incoming business documents for viewing directly in their accounting system against an account or transaction.

With IRISXtract for Documents fully integrated within Spindle Document Management, users benefit from the world's leading capture technology but more importantly a solution which adds value to their work processes and document workflows.
