IRISPowerscan™ 10 recognised as "Outstanding Scan Capture & Processing Solution"

Delray Beach – **IRIS receives this year's Keypoint Intelligence – Buyers Lab (BLI) Pick award for 'Outstanding Scan Capture & Processing Solution' with IRISPowerscan™ 10. To receive this prestigious award is a major honour that is being recognised throughout the information management industry.**

Keypoint Intelligence – Buyers Lab (BLI) is the worlds's leading independent evaluator of document imaging software, hardware and services. Their awards are a product of an extensive 12-month test cycle and recognise the most impressive and exceptional solutions the market has to offer.

Digitising paper documents to capture the information they contian is a critical task in any document-intensive organisation. IRISPowerscan™ 10, from IRIS, delivers advanced tools to knowledge workers tasked with capturing and processing pages to make the job as steamlined and automated as possible. The application can handle high-volume scanning, classification, and indexing, and can work with documents from just about any source, including all leading brands of scanners and even electronic documents that arrive in a watched folder from any source. It features class-leading OCR abilities with an emphasis on recognising foreign languages and documents that have a mix of languages on a single page. Most notably, it delivers intelligent processing that can recognise document types and automatically classify and index them without a user having to look at each one.

"We've been hearing about the 'paperless office' for more than 10 years now, and I suspect we'll be hearing about it for the next decade, too," noted Jamie Bsales, Director of Solutions Analysis at Keypoint Intelligence, "IRISPowerscan™ can apply its unique processing intelligence to quickly turn stacks of paper, as well as documents that already exist in digital form, into actionable information ready for an organisation's electronic workflows."

I.R.I.S. Corp. (a Canon company)
IRISPowerscan 10
Outstanding Scan Capture & Processing Solution

According to the judges, IRISPowerscan™ 10 won the Pick award as Outstanding Scan Capture & Processing Solution because of:

- its complete document capture and processing feature set,
- support for hardcopy capture from all leading brands of scanners, electronic document capture from watched folders and popular cloud storage services,
- top-notch OCR (optical character recognition) engine with support for 137 languages,
- IRISFingerprint technology that intelligently recognises document types on the fly to accurately split jobs without the need for separators,
- and intuitive user interface and handy wizards that help streamline capture tasks.

Since 2013, IRIS is part of the Canon group, bringing its 30-year experience as a developer in the field of data and information capture technologies to the table. Together with Canon, IRIS wants to offer customers more advanced solutions and services.

About IRIS

IRIS is a leading provider of 'Content to Process' technologies. Since 1987 IRIS has specialized in providing technologies that capture data and information contained in documents, which are relevant to business processes. Our core technology is IRISXtract™ which is used for automated processing of invoices and orders, HR and supplier records as well as case management documents in the legal, healthcare, and finance industries. IRIS Group has offices in Europe, Asia and North America. More than 500 employees work in an environment that encourages creativity and the exchange of ideas, as well as selfresponsibility. Cultural diversity among our employees is what inspires us and helps that innovations come true. Since June 2013 IRIS is part of the Canon Group – one of the leading innovators and suppliers of imaging solutions. Canon and IRIS will work together to offer customers more advanced solutions and services.

About Keypoint Intelligence - Buyers Lab

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

About Buyers Lab Software Pick Awards

Buyers Lab Document Imaging Software Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including evaluation of key attributes such as features, usability, and value. Each product that passes our lab test earns Buyers Lab's Platinum, Gold, Silver, or Bronze rating, with the best performers qualifying as Pick contenders.
