INTELLIGENT FILE CABINET

INTELLIGENT CAPTURE PART OF YELLOWFOLDER'S SERVICES TO HELP SCHOOLS GO PAPERLESS

🔒 **YellowFolder**

FACTS

PARTNER/CUSTOMER

- YellowFolder, LLC

IRIS TECHNOLOGY

- IRISXtract™ for Documents

THE SOLUTION

- Student Records, Human Resource Records, Special Education Records, and Administrative Records (Finance and Operations) need to be digitized at school districts across the country.

- After scanning the different Documents, the Documents are classified and indexed within IRISXtract™.

- The files are then tagged with metadata, verified and then transferred to a cloud based Electronic Records Management (ERM) system.

- Students and employees can then log in to the ERM system to access the files.

- Classification is done to store documents according to their class and the affected student/employee file.

- Full-text analysis and indexing is done to allow easy retrieval with keyword search.

BENEFITS

- Before the partnership with IRIS, all of the classification and tagging of documents was done manually.

- Automation has enabled YellowFolder to increase productivity by more than 200%, while maintaining the highest standards for accuracy.

- Automation has enabled YellowFolder to help more schools go paperless and become more efficient in providing their services to the children.

KEY FACTS:

- Up to 1 million images processed weekly.

- Used by thousands of people within the hundreds of districts.

- Hundreds of different Document Types.

YELLOWFOLDER, LLC:

"YellowFolder partnered with the IRIS team several years ago and we've never looked back. By working together with the IRIS team, YellowFolder has become the pioneer in the industry. We're always looking at new ways to improve our processes and listening to our customers so we can continue to provide a world-class service, with the best software available to our schools, because in the end... it's really all about the kids."

Mike Nilsson, COO, YellowFolder

ABOUT US

Image Recognition Integrated Systems (IRIS) is a leading provider of 'Content to Process' technologies'. IRIS offers solutions for automatic invoice and order processing, HR and supplier records as well as case management in legal, healthcare, and finance sectors.

IRIS provides technologies and solutions that capture data and information contained in documents, which are relevant to business processes. The goal is to make the data easily available while reducing operating costs.
