DIGITALIZATION AND ANONYMIZATION OF CONSTRUCTION FILES UNDER GDPR
BPO SOLUTION FOR PUBLIC SECTOR

FACTS

CUSTOMER/PARTNER

- City of Apeldoorn/ OASIS Group

IRIS TECHNOLOGY

- IRISXtract™

SOLUTION

- City of Apeldoorn is a customer from OASIS Group for more than 3 years. OASIS Group which is acting as a BPO is using the Digital Mailroom application from IRIS to classify all construction files from City of Apeldoorn. IRISXtract™ recognizes automatically more than 40 different classes of documents. The construction files are mainly in A4 to A0 format.

- After the classification done by IRISXtract™, OASIS Group is anonymizing some of these documents. The anonymization process is made to comply with the GDPR rules of the European Union.

- The Export of the documents are in a PDF format and thanks to the OCR engine of IRIS, these documents are transformed into searchable PDF´s, where the anonymized data has been automatically removed from the text layer.

BENEFITS

- The documents are digitalized and available at any time for authorized people.

- Secured sharing of data thanks to the anonymization of some types of documents.

- More efficiency in the internal processes of the clients.

- Cost reduction due to elimination of the paper archive.

- Rapid search through documents made possible thanks to IRIS´ OCR.
