

## TR-RESISCAN CERTIFIED INVOICE PROCESSING

CONTINUOUS PROCESS OPTIMISATION WITH IRISXTRACT™ AND IRISPOWERSCAN™

### FACTS

#### PARTNERS/CUSTOMERS

- HGK Hotel- und Gastronomie- Kauf eG

#### IRIS TECHNOLOGY

- IRISxtract™, IRISpowerscan™

#### THE SOLUTION

- HGK is a purchasing association serving numerous members in Germany.
- The entire process can be explained as follows: Scanning with IRISpowerscan™, automatic document separation and data extraction with IRISxtract™, archiving the iHQC-compressed invoices according to TR-RESISCAN. This gives members the security that invoice processing at HGK is done to high quality standards.
- To reproduce as precise as possible an image of the original, the invoices are scanned in colour and later compressed using iHQC. This saves storage space and makes it easier to communicate with the members.
- Then the receipts and metadata are transferred into the DMS and accounting system for further processing.

#### BENEFITS

- It saves HGK a lot of time due to the high level of automation and enormous increase in quality.
- Thanks to iHQC compression from IRIS, less storage space is needed and the original receipt is also available to members in colour.
- Certified security standard and high added value for members.
- Additional cost-savings due to automated invoice separation.

# HGK

**Mit uns ist zu rechnen!**

#### KEY FACTS

- Up to 1 million pages processed per year
- A reduction of over 90% of the processing time for members.
- Significantly higher quality

#### HGK

*Changeover to the new IRISxtract™ system ran smoothly. Due to the usage of new Xtract modules, our invoicing process was able to be further optimised and, due to the free-text based invoice processing, more invoices could be taken into our processing system for the HGK-BackOffice without additional staff.*

**Subahar Parameswaran,  
IT Manager, HGK Hotel- und  
Gastronomie-Kauf eG**
