

SGH extends the use of IRISXtract™ 5 to the Asian market

Aachen, 14th September 2022

SGH is one of the largest German full-service outsourcing providers for invoice processing in the factoring market. SGH was founded in 1990 and has hundreds of employees worldwide including at its Technology Innovation Hub, SGH Asia Ltd, located in Vietnam.

For 25 years, SGH has been using IRISXtract™ to process more than 100 million invoices automatically. Knowing productivity is key for a BPO, this automatic invoice processing solution from SGH has continuously been optimized.

In October 2021, SGH started to analyze whether IRIS solutions could also support the Asian market. The conclusion is overwhelmingly positive with limitless possibilities using the powerful IRIS OCR on Asian languages, including for Invoice processing, Government forms, and Mailroom applications.

In July 2022, SGH Asia Ltd experts have been trained and certified on IRISXtract™ 5 to become a new IRIS VAR partner for the Asian market.

Everything is now ready for the next chapter to begin in the long-lasting partnership between SGH and IRIS.

“Thanks to IRISXtract™ SGH is able to optimize the process of handling all incoming invoices, minimize manual effort, and maintain our strong market position as the leading service provider for invoice capturing in Germany. We are now excited to expand these solutions into the Asian market as well.”

Mathew Boylan, CEO, SGH ASIA
