EDWARD, IRIS´ first Canadian partner to offer IRISXtract™ in the cloud

Aachen, November the 14th 2022

After several months of constructive discussions, IRIS is very proud to officially announce that Edward will be using the complete IRISXtract™ Cloud technology for the business solutions they offer to their clients. This authorization is a first in America and a great breakthrough for a Quebec company.

"I am very pleased with this new agreement. IRISXtract™ Cloud is an important ingredient in the recipe we provide to clients who wish to implement a document management automation process within their company. My team and I are proud to be able to officially work with this solution and to help Canadian and American businesses. With this good news, the doors to the international market are now open."

Yvan Caron, CEO of Edward BI

"During our discussions it was from the beginning clear that Edward IA has all the ingredients for a successful partnership. An excellent technical team fully certified on IRISXtract™, a good understanding of the business needs towards document process automation, and an entrepreneurial spirit. During our discussions, Edward Yvan Caron- CEO of Edward IA, took our best practices and 35 years of experiences, and mixed it with his business insights. The result is IRISXtract™ in the cloud hosted in Canada with a Canadian and an international flavor. We look forward to a long and successful collaboration with Edward IA."

Bart Ballegeer, Director Business Development of IRIS inc.

A CANON COMPANY

ABOUT EDWARD BUSINESS INTELLIGENCE

Specializing in setting up corporate document management processes (invoices, emails, etc.), Edward Business Intelligence implements various technologies within companies of different sizes to automate their ongoing operations. Their solution allows Canadian businesses, both large and small, to maximize the work of existing resources, or to replace the tasks of people whose positions are not filled given the current labour shortage.
